

OUR MISSION STATEMENT

PAC International Logistics' mission is to partner with businesses competing in global markets, by personally managing the shipments of our customer's materials and products by air, by sea and on the ground.

We continually strive to find for our customers the best solution and value through our strong affiliations with our agents and brokers worldwide who share our values of honesty, integrity, reliability and adaptability.

PAC International will always understand the importance of the responsibility of holding our client's world and their partnership in our hands.

for our customers**

Who We Are

PAC International Logistics is an international NVOCC and freight forwarding company. We leverage our vast network in the movement of shipments for many volume importers and exporters nationwide.

Book Express is a division of PAC that focuses on the handling of books and educational materials for importers around the globe.

PAC International and Book Express Network's simple philosophy is to provide our customers with their total transportation solution.

What We Do

We compete in transportation and logistics management by providing solutions in the most cost effective manner with true customer service.

We are committed to meeting our clients' urgent demands through our reliable range of ocean and air freight services.

Our confidence exists because of our expansive network of our own offices and quality agents throughout Asia, the United States and Europe. PAC International Logistics is equipped with cutting edge computer technology for tracking your shipments.

What This Means For You

Our network of worldwide partners in the industry is similarly focused on providing the highest quality of personalized service and commitment to our clients.

This makes us the fastest growing international freight forwarder in the publishing and consumer goods industries.

Maintaining strong carrier relationships is a core competency of PAC International Logistics. This allows us to consistently receive competitive pricing for ocean freight, space commitments in peak seasons, cargo security and integrity, complete export and import documentation.

As an accredited IATA agent, we can handle your air freight shipments, as well as, consolidation services to and from any country/ city regardless of weight, size or commodity to meet your needs at any given deadline.

Our Company moves over 400 Containers per week within our network giving us price and capacity advantages.

We own offices throughout the Chinese mainland which gives a distinct advantage over our competition.
